Boys of Kansas now average an inch taller than their fathers, which may be due to the improved method of irrigation practiced by the present generation.

That Kansas City woman who paid \$50 for a husband ought to be prosecuted for forcing up the price to a speculative figure in excess of demand value.

TRAVELERS of "moderate means" will be able to dine in a lunch counter car between San Francisco and Los Angeles. The difficulty is that so few travelers like to confess that they are of moderate means.

It is announced in a dispatch that a prima donna has picked up a lump of ambergris worth \$15,000, and the press agent gives the gifted and fortunate one's name, not necessarily, perhaps, as an evidence of good faith, but merely for purposes of publication.

VIENNA police, being of the opinion that pedestrians are chiefly to blame for street accidents, have issued a notice to the effect that a pedestrian, if he wishes to cross the road, must do so in a direct line, taking the shortest path. Persons found walking along the street lengthwise and thus endangering their own safety and that of others will be reprimanded.

SOME may question the justice of Judge Landis' decision in sending three men to jail for perjury and releasing three women who told precisely the same story that the men told, but as "a jest's prosperity lies in the ear that hears it," so is a lie a lie only when one expects to hear the truth. Now, no one—indeed, we mean nothing of the sort, ma'am! No one expected the women to know what they were talking about in this case, since they had been misinformed. And that's what we meant to say all along. Honest to goodness.

In both New York and Chicago the number of deaths due to automobiles is rapidly increasing. In the former city during the first nine months of the present year 156 persons were killed by automobiles, as against eighty-nine during the corresponding period of the preceding year. Coroner Hoffman's quadrennial report, just issued, reveals a similar increase in Cook county. The fatalities due to automobiles in 1907 numbered sixteen, in 1908 eighteen, in 1909 twenty-eight, in 1910 fifty-two and in 1911 seventy-five. Unlike the accidents caused in many other ways which result fatally, those for which automobiles are responsible in a large proportion of cases are avoidable, or would be if traffic were properly regulated. Study of the subject affords plenty of opportunity for those who wish to further the conservation of human life.

Tomorrow and a few days following will be full of efforts to locate things swatched about by the Halloween gang.

Correspondence Between Col. Nat Beltzer and Judge Price.

Highland Park, Oct. 25th, 1912.

Dear Judge:—After having read your correspondence with the Hon. J. D. Dugan and others, I desire to make a confession and a confession for my course and conduct in straying off from the Republican party, to which I have always been allied from my boyhood. I must admit that I have been too susceptible of the political vanity of Col. Roosevelt, and suffered myself to be led astray by his political treachery, but my better judgment and sense have dictated to me that I was doing wrong in using my talent and influence against the Republican party, the price and life of our great nation. And I have resolved that henceforth I shall be found in the Republican ranks, and God helping me I shall cast my vote on the fifth of November next for William Howard Taft. I believe it shall be one of the greatest acts of my life. I want to say to every one who believes in the Republican doctrine and is inclined to follow Roosevelt in his wild political frenzy, look before you leap, turn to your home, your friends and to the glorious and grand old Republican party that is an honor and a blessing to this country. Hoping that you shall understand that I shall stand solid in the Republican ranks as long as there is a fragment left, Respectfully yours, Nat Beltzer.

Poplar Level, Oct. 25th, 1912.

My Dear Nat:—Let me commend you for your wise conclusion and determination to support the Republican party and its nominee in the coming election; that you have seen your error in due time and I am proud to say that many, if not all, that were induced by Roosevelt fanaticism to revolt against the Republican party and its nominees are now following your example and refuse longer to follow an attempted political stampede led by a set of disgruntled soreheads and disappointed politicians. The Roosevelt political whirlwind will soon be over and disappear and belost in the still air of common sense.

The "Bull Moose" assumption is baseless, a political fungus without roots, imaginary and unreal, with no basis or beginning and shall terminate in oblivion and after the election the very name shall be lost in the regular trend of politics. It is very unfortunate that sensible men will let their uncurbed ambition ruin their name and fame, simply to gratify their selfish desires, and are willing to sacrifice principle and policy that have made them great for selfish aggrandizement and vain acquirement. "Now Mr. Taft was as fairly nominated as any candidate has ever been in either party. There might have been some things done that should not have been done; this is always the case in every organization with which human beings are connected, but they are not justified in destroying the party because they believe a few men holding responsible positions did something they believed were unfair. If this rule was followed in all the activities of life they would be compelled to repudiate an attempt to destroy, not only our political party but the church or lodge or any other organization to which they belong. The Republican party represents to day what it has always represented." In closing let me congratulate you for your noble resolve to be true and stand firm. You shall never regret it.

Yours truly,
Q. B. Price,

There has been considerable talk lately of organizing a county fair association, exhibitions to begin next fall. Fairs here have heretofore been losing ventures, but with the great increase in population and the growing interest in stock raising, cattle breeding, agriculture, horticulture, good roads, etc., it is thought by many of our progressive people that a fair could now be maintained without money loss, and would be a great factor in the general improvement and development of the county.

Mr. Carl Tudor, in his 79th year, died of complications of ailments at the home of his son-in-law, Mr. Andrew Pevlar, near Midland, on the 23rd. He was one of the pioneers of the county, and was the oldest of quite a family of the name. Burial was in the cemetery at Old Bethel last Thursday afternoon, where gathered a large number of relatives and friends to show this token of love and respect.

KENTUCKY SYNOD

Of the Cumberland Presbyterian Church, Convened Tuesday, Adjourns Tonight.

The Cumberland Presbyterian church is the center of activities this week, the daily sessions of the Kentucky Synod being held there, and attracting audiences that fill the structure at each session. There are more than 125 delegates and visitors in attendance, and the program is one that contains vast opportunities for pleasing and instructive work; the papers, sermons, discussions, reports, have all been elevating and inspiring, and the progress being made by the church in all branches is especially gratifying. Sessions are held morning, afternoon and evening, the last session being held tonight. The opening session was Tuesday night.

Take in all things movable, or they are likely to travel some tonight.

The county assessor and his deputies are busy getting tax schedules rounded up.

Since the stock law has been in effect long enough for miles of fences to be torn down, the small boy who has the idea that removing and carrying away of gates is a fine way to observe Halloween will miss many opportunities this year.

The Sheriff's office did a land office business Monday, people rushing to pay taxes.

There is a shortage in coal cars, and a scramble on for coal from everywhere. Local mines are booked solid for all shipments that can be made this month, and are sending notice to the trade that no new orders will be booked for shipment earlier than November. It is feared that there will be an alarming shortage of coal over the country this winter.

After a visit of two weeks with friends here Mrs. Sarah T. Hall will leave the first of the week for her home in Kirksville, Mo., and Miss Lullie T. Hall for Atlanta.

While some business men are moving out, others are planning to come in, and it is not likely that we shall have any vacant houses for long.

Our court house, business places, attractive residences, dozen miles of concrete pavements, and other things practical and beautiful are getting the praise of our more than 100 delegates here this week.

Messrs. G. E. Countzler and E. P. Stone, of Hopkinsville, have been here a few days this week on business. An option has been secured on a business house, and it is likely that a new drug store will be opened. Mr. Countzler is well known here, where for ten years he was in business, and he has many friends who would be glad to see him here again.

A Gift With a Thought in It.

There's one very simple way out of the Christmas shopping problem: don't shop, but sit quietly at home and subscribe for The Youth's Companion. The chances are, too, that no present you could buy for the young friend or the family you delight to honor could confer so much pleasure as this gift of The Youth's Companion for a whole round year—fifty-two weeks' issues, and the fifty-second as keenly anticipated and enjoyed as the very first.

There will be stories for readers of every age; sound advice as to athletics; suggestions for the girl at college or making her own way in the world; good things for every member of the family—all for \$2.00—less than four cents a week.

The one to whom you give the subscription will receive free all the remaining issues of 1912, as well as The Companion Yearly Treasury, Encyclopedia and Calendar for 1913, in rich, translucent colors. It is to be hung in the window or over the lampshade. You, too, as giver of the present will receive a copy of it.

Muhlenberg To Have a Farm Bureau.

Telegraphic announcement is made from Washington that Muhlenberg, Jefferson, Madison, Henderson, Warren and Daviess counties have been selected in Kentucky for the establishment of a farm bureau, with instructors to teach farmers how best to cultivate their land for profit, also what crops to plant so that the land may be enriched. This work is to be done at the joint expense of the National and State governments, and should prove the wisest of investments. Our people will be highly gratified to learn that Muhlenberg is among the first to be selected, and it is certain that every encouragement will be given the movement by our people. Ours is one of the best counties in Western Kentucky, and with an awakening on the part of the land owners, can be made one of the very best in the State.

A politician who is also a student of other things, declares that while the bull frog has heretofore had the reputation of producing more noise for its size than any known bull, now has to vacate for the Bull Moose.

Former Local Pastor Honored.

Methodist ministers who are able to hold appointments four years consider it a distinctive honor. Such honor has been conferred upon Rev. Geo. H. Givan and he will serve First M. E. Church, South, of Alamo-gordo four years, the Lord willing. The Advertiser will take the responsibility for saying that there is not a single man, woman or child in Alamo-gordo who knows Mr. Givan but who join in congratulating the town for having Mr. Givan with us the fourth year—four consecutive years. Mr. Givan was the only one at this conference honored by being sent back the fourth time.

Rev. Givan is one of the ablest ministers of his church.—Otero County (N. M.) Advertiser, Oct. 19, 1912.

The I. C. is extending its switch at Depoy to the north road crossing, fully doubling the capacity. A large force of men and teams have been doing the grading, and the track laying will be completed very soon. Greenville is this week adding to its excellent reputation for hospital ity, every home being thrown open for the entertainment of delegates to the Kentucky Synod of the Cumberland Presbyterian church, which closes tonight.

Section crews on the I. C. are busy doing the regular fall cleaning up, weeds being cut and burned, track overhauled, and everything being put in good physical condition to withstand the severe winter weather.

Mr. W. A. Wickliffe is being roundly congratulated on his address of welcome to the ministers and delegates to Synod. It was bright, cheery and convincing, and made a favorable and lasting impression on everyone.

Despite the efforts that are continually being made to control it, diphtheria is still afflicting many children all over the county, and there have been several deaths from the ailment. Last, now the matter appears to be better under control, and it is hoped will soon be exterminated.

Old Soldier Succumbs Suddenly.

The thin line of civil war veterans was reduced by the death of Mr. William Everts, who fell dead in his yard near East Union church Wednesday afternoon, Oct. 23. He had been in his usual health, and had assisted in doing some repair work on his home, and about 4:30 went out into the yard to cut some wood. Not returning in proper time some of the family went out to see about him, and found him dead, his hands grasping an ax handle. He was 70 years old, and was one of the prominent men of his section, and well known all over the county. Funeral services were held at East Union church at 2 o'clock last Thursday afternoon, and a large number of friends were present, as were several of his old comrades in arms. Deceased was a consistent member of the Baptist church, and was an exemplary citizen. His death will be mourned by many relatives and close friends.

Muhlenberg is to have another boost, the selection of one of the farm bureaus being established to be located here. If our people will give this proper support it will prove the most important thing that could have been secured. Our people are so largely engaged in mining and other industries that we are not producing enough to supply food for ourselves, which should not be, as our lands are plentiful and could be quadrupled in productivity, with proper study and effort.

Voters of Muhlenberg County.

I was in your county four days and tried to see all the voters possible in the limited time I had. I made six speeches in the county and I make this statement that you may know I am making an active canvass and will defeat R. V. Thomas, Jr., for Congress in this district if the voters in Muhlenberg County will go to the polls and vote for me regardless of whom they vote for in the Presidential race. Put your stencil opposite my name if you are a Roosevelt man for it you fail to do this you are adding one-half vote to Thomas.

I stand for policies which insure a continuation of prosperity and protection to the farmer and laborer while Thomas stands upon a platform which advocates the same tariff legislation that produced want and misery throughout this country under the Cleveland administration.

I am going to win if this county will do her duty. If you really want to defeat Mr. Thomas now is your opportunity.

Yours truly, THURMAN B. DIXON. (Advertisement.)

Y. M. C. A. NOTES.

The amount desired was given by the people of Greenville and the \$1,200 addition will be put on the Y. M. C. A. Building, so that it may more adequately meet the needs of the community. Farmers around Depoy, who are among the best in the county, are using this fall a vast quantity of limestone screenings, which are being bought by the carload and distributed among those in the deal. This is one of the things needed by most of the land hereabouts, and will last from five to seven years, it is said, greatly aiding any crop that may be planted. This is a move that should be made by every land owner.

The county school fair will be held here on Nov. 15. Be sure to attend.
